EXTREME SCALE SOLUTIONS RECEIVES SENIOR DEBT FACILITY FROM A REGIONAL BANK

Wilmington, DE – Gates and Company is pleased to announce that its client, **Extreme Scale Solutions** (ESS), received a senior debt facility from one of the leading regional banks in the Mid-Atlantic. ESS will leverage this new banking partnership to expand its marketing and sales leadership, as well as hire additional computer scientists and engineers to support future projects and build-out its *virtual hybrid cloud* platform.

Extreme Scale Solutions has developed unique capabilities in big data analytics and high performance computing to provide its customers with software, services, and tools to process very large data sets and improve corporate performance and decision making. Although a relatively young company, ESS has already validated its capabilities and value through projects with two of the largest financial services companies in the world.

“We are very proud of the success and growth Extreme Scale has achieved to date. This credit facility will allow us to accelerate our growth by expanding our management team, hiring additional staff, and launching our first enterprise software solution,” commented **Rishi Kahn**, President of Extreme Scale Solutions. “We are working hard to close the current gaps in Infrastructure-as-a-Service and other Cloud offerings by delivering an industry-leading Platform-as-a-Service solution that conforms to Third Platform principles.”

“We enjoyed working with Extreme Scale Solutions to develop a strategic business plan and attract capital necessary to transition the company from a consulting firm to a software development company,” said **David Gates**, President of Gates and Company. “Extreme Scale Solutions has already proven itself as a successful FinTech solution provider and the launch of its *virtual hybrid cloud* platform will accelerate its penetration into additional industries where the ability to process large data sets in high performance computing environments is imperative.”

Gates and Company served as an advisor to Extreme Scale Solutions in this transaction. Terms of the transaction were not disclosed.
